

New alternative option to shipping a urine sample. Save money!

Instructions for taking and sending a photograph for Bio-evaluation.

Please read carefully

1. Provide a recent photo (up to 1 year old) taken from at least the waist up. The photo can be printed out from a digital camera or it can be processed film. The background must be clear of all organic matter. This means **NO other people, plants or pets in the photograph. Blank wall backgrounds are preferred.**
2. **Clip about 1-2 Tablespoons of hair from your neck area.** Clip it as close to the skin as possible. Place this in a PAPER envelope and seal it.
3. **HANDWRITE your signature on the envelope.**
4. OPTIONAL – put your fingerprints, from at least two fingers, on the same envelope.
5. Include your lead shield bag for delivery of “charged” remedies. We will be happy to store it here for your convenience.
6. **Send the above items to 2308 Camino Vado, Santa Fe, NM 87507**, and they will be placed in your file for any future evaluation. The photograph will remain usable for at least a year. Emailed photos will not be accepted.
7. When you are ready for a bio-evaluation **please call 505-424-8808 to schedule an appointment.** Please fill out a re-evaluation form (<http://drdenniskramer.com/pdf/re-evaluation-form.pdf>) and email it to biodoc@aol.com. In the case of an urgent matter call with your immediate concern and we will fill out the form over the phone with you. If there is an emergency situation, please phone or email early in the day.
